02/21/2025	Service Ticket: 100843 Summary: Oklahoma County Jail - Cameras Down -Priority High Rounded up server key and drove to site. Once on, site all cameras were up. Looked over site health and all looked good. Pulled site health, configurations and logs from all servers. Brandon will call Avigilon and send logs in an effort to see if they can see why the issue occurred. We could not see anything in logs that would explain the behavior of the servers that partner experienced.	Y	1.50	98.00	\$147.00
02/21/2025	Service Ticket: 100843 Summary: Oklahoma County Jail - Cameras Down -Priority High Arrived at the site and meet with POC went to the server room and logged into the system. Found that all the servers were up and operating correctly. Also found that all of the cameras were up and recording. Spoke to partner and found out that we're having issues with server one and three. I spoke with Justin and pulled the server logs for all five servers in the system pulled this out health report and also did a server back up just in case there's issues in the future. I will take the information and open up a ticket with a Vigilante, submit the information and let them read over the logs to see what caused the issue with the servers in the first place. As of now, everything is up and operating correctly and everything is good to operate.	Y	1.25	98.00	\$122.50

PO Status Information

(IMPORTANT INFORMATION REGARDING TRANSACTIONS DISPLAYED IN BOLD)

A transaction displayed in bold with an * to the left of the Entry or Exit Plaza name indicates a System Matched Transaction or Violation Toll where the PIKEPASS was not properly read at both the entry and exit locations. The entry or exit plaza displayed with the * identifies the location the system used to calculate the toll charge. System Matched Transactions are calculated at PIKEPASS toll rates and Violation Tolls are calculated at CASH toll rates. These occurrences may be caused by improper mounting of the PIKEPASS, vehicle restrictions, the equipment itself or other factors and can result in incorrect toll charges. A transaction displayed in bold with a ^ to the left of the Turnpike name indicates that OTA turnpike vehicle identification equipment has identified a vehicle classification (axle count) for the specific toll transaction different from that reflected in your customer records and can result in incorrect toll charges. If you believe you were charged incorrectly, please contact the PIKEPASS Customer Service Center for assistance within 30 days of the PIKEPASS Statement Delivery Date.

(IMPORTANT INFORMATION REGARDING INTEROPERABLE TRANSACTIONS)

Interoperable toll transactions, identified in the segregated section of your PIKEPASS Statement, are the result of your PIKEPASS or license plate image associated to your PIKEPASS being read by an Interoperable Toll Authority. To dispute any interoperable toll transaction on your PIKEPASS Statement, please contact the PIKEPASS Customer Service Center for correction within 30 days of your PIKEPASS Statement Delivery Date. If you maintain a separate toll account with an Interoperable Toll Authority and use a toll transponder issued by that authority at the same time as your PIKEPASS, duplicate transactions may be charged to each account for the same turnpike travel. For credit of duplicate charges on your PIKEPASS statement, please contact the PIKEPASS Customer Service Center for assistance within 30 days of the PIKEPASS Statement Delivery Date.

IMPORTANT NOTICE: Never rely solely on wiring instructions sent via email. Cyber criminals are hacking email accounts and sending emails with fake wiring instructions. These emails may appear legitimate, convincing, and sophisticated. Always independently confirm wiring instructions in person or via a telephone call to a trusted and verified phone number (not the number contained in the emailed instructions). Never wire money without double-checking that the wiring instructions are correct.
