ATTACHMENT A: RISK-BASED SUBRECIPIENT MONITORING

This recipient is **Low RISK**

- i. All standard processes, as outlined in the Final Rule, are permitted.
- ii. **Random sampling of expenditures** for supporting documentation/detail should be conducted at least once per year.
- iii. Agency must send reminders to the entity of federal single audit requirements.
 - i. **If the Agency subaward to the entity is \$750,000 or more, subrecipient must complete a federal single audit** and Agency is responsible for confirming the entity completes a federal single audit. If the entity does not complete the federal single audit, they are in violation of federal compliance requirements and corrective action must be taken.
 - ii. **If Agency subaward to the entity is less than \$750,000**, Agency should still notify the entity of the requirement as the \$750,000 threshold is a cumulative of all federal funds an entity receives during the entity's fiscal year. Agency must verify if an entity is required to perform a federal single audit by checking the total of federal awards made to an entity through www.usaspending.gov. Corrective action is needed if the federal single audit threshold is met but the entity has not completed a federal single audit.

ATTACHMENT B1: 20154 PROJECT DETAILS

Project: Share Foundation Development Project

Description: Oklahomans face unforeseen life experiences, such as job loss or medical diagnoses, that can lead to financial hardship placing the family at the risk of home insecurity or potential homelessness. SHARE Foundation will partner with fellow home builders, local businesses and construction vendors to provide homes directly to families or other non-profits working with the families at no cost. SHARE Foundation seeks to build and gift a home annually. The SHARE Construction Committee has been working on our first home to finalize the plans to accommodate the donated lot which has been approved by SPUD committee and City Council, applied for and received permits, and is currently preparing the lot for foundation. We anticipate being able to complete the construction and gift of the first home by the end of 2024. The SHARE Foundation's objective is to address housing insecurity and/or homelessness through the development of real estate into reasonable housing communities. Our first home is a duplex which will directly impact two families, but the gift will also positively impact our community as these families are able to find security and hope. More information can be found at: www.theSHAREf.com.

Expense Type: Capital Purchase

Amount: \$ 250,000.00

ATTACHMENT B2: REQUIRED PERFORMANCE METRICS

As part of reporting, recipients should describe how performance management is incorporated into their SLFRF program, including how they are tracking their overarching jurisdictional goals for these funds as well as measuring results for individual projects.

Performance indicators should include both output and outcome measures. Output measures provide valuable information about the early implementation stages of a project. Outcome measures provide information about whether a project is achieving its overall goals.

B2.1: MANDATORY PERFORMANCE REPORTING

Below is a list of required data for Project 20154 Share Foundation:

- Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced: *The SHARE Foundation is partnering with home builders, local businesses, and construction vendors to provide homes directly to families or other non-profits working with families at no cost. The objective of this program is to address housing insecurity and potential homelessness by developing real estate into reasonable housing communities. The foundation aims to build and gift a home annually to families in need. The first home being constructed is a duplex, which will directly impact two families. By providing secure and affordable housing, the program helps families facing financial hardship or unforeseen life experiences to find stability and hope. While the program may not directly address public health impacts, it contributes to the overall well-being and stability of individuals and families, which can have positive effects on their health and overall quality of life.*
- Brief description of how a recipient's response is related and reasonably proportional to a public health or negative economic impact of COVID-19: *The recipient's response (SHARE Foundation) is related and reasonably proportional to the negative economic impact of COVID-19 by addressing the housing insecurity and potential homelessness faced by individuals and*

families during the pandemic. The economic downturn caused by the pandemic has led to job losses and financial hardships for many people, increasing the risk of housing instability. By providing homes to families in need, the program helps mitigate the negative economic impact of COVID-19 by offering a stable and secure living environment. This response supports the overall well-being and stability of individuals and families, which is crucial during these challenging times.
