# New Wellness Unit

## Hired Wellness Unit Director

- Licensed Counselor for staff
- Experience with Detention Staff & Residents
- Promoting mental, emotional, & physical wellbeing of staff
- Provide direct counseling services, wellness programs, critical incident debriefings, offering support to staff and, at times, residents
- KPI – Reduction in employee turnover, call-outs, FMLA, improved job satisfaction, retention, morale

## Creation of Lactation Room & Wellness/Decompression Room

- Vendor-supported
- Prioritizes Officer Wellness & Mental Health
- Researched Benefits of Wellness Room in Corrections:
  - Reduced Stress Levels
  - Improved Decision-Making
  - Increased Energy & Productivity
  - Enhanced Physical Health

## According to NIJ...

Correctional officer stress stems from two primary sources:

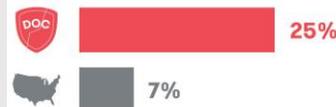

- The demands of responding to critical incidents within the correctional facility.
- More mundane organizational stressors, ranging from understaffed shifts to toxic work environments.

Source: NIJ Research Conference, 2023

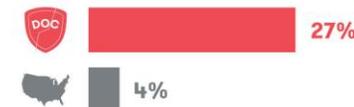

## Corrections officers experience...

**Depression** at a level significantly higher than the national average.

**PTSD** at a level significantly higher than the national average.

**Suicide** at a rate 39% higher than the working age national population.

**Shorter life expectancy** than the national average.

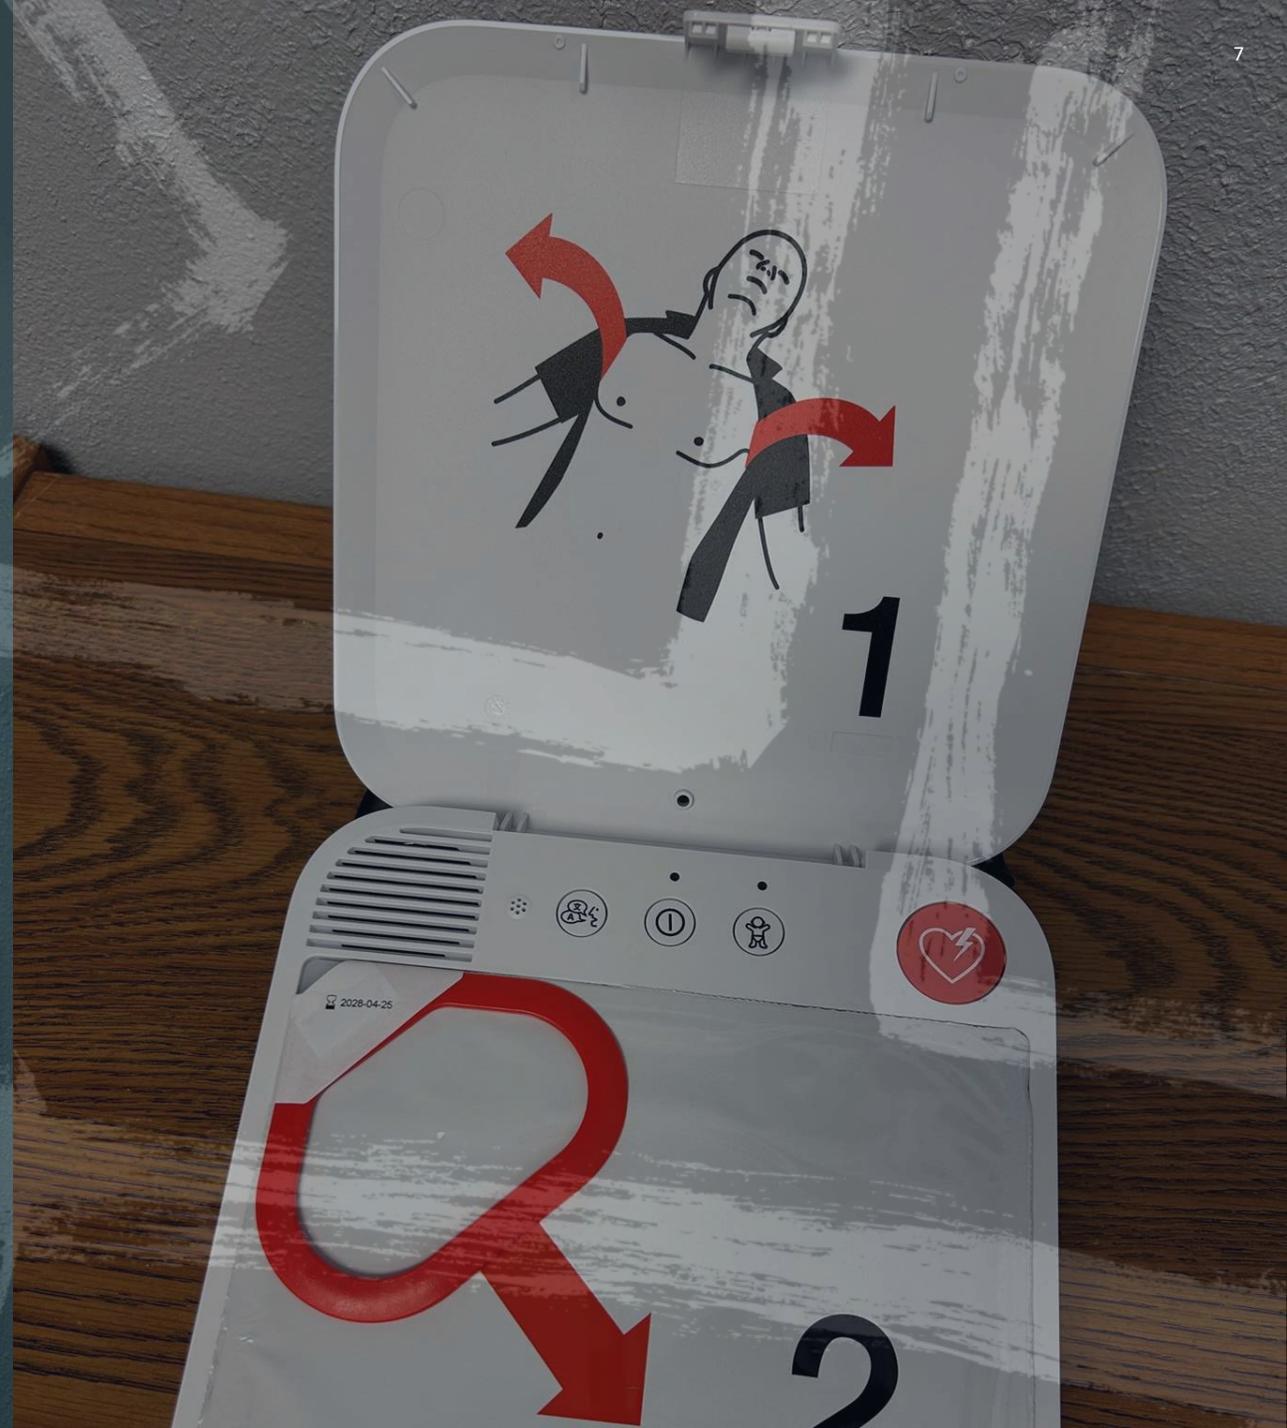

## RESIDENT HEALTH CARE ROADMAP
