RE: ARPA Purchase Order No. 22505577 Behavioral Care Center

Dear Mr. Trumbo,

White and Associates have reviewed the current request and need for the removal of the contaminated soil as indicated and contained in the Standard Engineering and Testing report completed July 20, 2025.

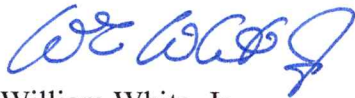

White believes the work described to be necessary and reasonable for the proper and efficient accomplishment of the project and program objectives, and the tests show these items are verifiable and required. White believes these items meet the standards under FARS 6.302-2 Unusual and compelling urgency to use the sole supplier Midwest Wrecking for the removal of the material and proper disposal. The work needs to be completed as time is of the essence with potential hazardous risk to the adjacent streams.

The prime contractor, Flintco, provided pricing information using Midwest Wrecking as the subcontractor. Under federal guidelines CFR-200 and FARS if it is to the advantage of the Government (Oklahoma County) to award the prime contract to Midwest Wrecking the Government may award. Flintco has no objections. The advantages of awarding to Midwest include savings of over \$75,000.00 to the Government, having one point of contact for removal of the contaminated material, and to complete the balance of the work under unit pricing already in place.

White has reviewed the unit prices and believes the Integrity of Unit Prices as defined by FARS is maintained and in place. The contractor has demonstrated the cost of the supplies and the labor for installation to be consistent and without distortion. White completed the proposal analysis under the guides of FAR 15.404-1 and recommends to Oklahoma County the amounts shown are fair and reasonable.

Please contact this office if you have any questions.

Sincerely,  
White and Associates

  - E. No material of any kind shall be used in the work until it has been inspected and accepted by the County Engineer and the Oklahoma County Property Manager. All rejected materials shall be immediately removed from the premises. Any materials or workmanship found at any time to be defective shall be replaced or remedied at once regardless of previous inspection. In such case, Contractor shall not be entitled to receive any further payment until the work is finished. If such expense exceeds the unpaid balance, Contractor shall pay the difference to the County. The expenses incurred by the County, as herein provided, and the damage incurred through Contractor's default shall be certified by the County Engineer.
- B. **FOR CONVENIENCE:** If the County Engineer determines that a termination is in the County's interest, the County may terminate the entire Contract or any portion of the Contract.
