Board Comments

Comments from Cody Compton District One: I want to bring it to your attention, as you know floors three and four in Investors Capital Building are secured entrance due to no security in that building. On the third floor men's restroom that is badge access only, we have had significant issues there since we moved in. Specifically in a stall that creates a health hazard. We have notified the other entities we have allowed to use that facility other than District One and District Three on multiple occasions. If anybody wants to see pictures, those are available. If it does not get taken care of and under control then next time this board meets, we will be looking to limit access significantly to the men's restroom on that floor to District One and District Three only. We do not want to do that, we have given every opportunity for people to take care of things themselves to including putting extra cleaning supplies in there, but if people will not take care of making sure everybody is in a clean and safe environment then we will have to take further actions.

No New Business
